EXECUTIVE ANALYTICS & GOVERNANCE REVIEW

City Payroll & Workforce Analytics

A Comprehensive 15-Page Multi-Dimensional Audit of Municipal Compensation, Overtime Outlays, and Demographic Equity.

Source Dataset: processed-payroll (Kaggle)
Architecture: Bento Grid Design System (#0072C6 Accent)
Date: October 2026

1. Executive Summary

Strategic Visibility Across Municipal Operations

This report establishes a rigorous analytical framework for evaluating municipal expenditures, operational overtime distribution, and workforce equity. By synthesizing massive public payroll datasets into an intuitive Bento-themed reporting engine, city leadership gains immediate visibility into structural cost drivers and inclusion metrics.

Core Governance Pillars

Fiscal Accountability: Real-time tracking of base salaries, gross outlays, and department-specific compensation benchmarks.

Overtime Optimization: Granular identification of operational spikes and departmental strain.

Workforce Equity: Comprehensive intersectional audits monitoring ethnic representation and gender pay parity.

Total Base Outlay

$41.72B

Cumulative base financial commitment across all municipal departments.

Gross Compensation

$50.71B

Total gross financial obligation including bonuses and allowances.

2. Methodology & Architecture

The Bento Grid Design System

The reporting architecture is structured around a specialized 3-page interactive dashboard (`Salary Analysis`, `Overtime & Benefits`, and `Equity & Diversity`), unified by a strict custom blue-and-white Bento grid design system (`#0072C6` royal blue accents, white cards with `8 px` rounded borders, and soft gray `#E2E8F0` visual dividers).

Data Processing Pipeline

1. **Ingestion & Cleansing:** Raw records from the Kaggle `processed-payroll` dataset were standardized to eliminate missing values and harmonize job titles.

2. **Measure Engineering:** Custom DAX measures were established for aggregates such as `Total Payroll`, `Total Overtime Pay`, `Average Total Compensation`, and `Gender Pay Ratio`.

3. **Interactive Drill-Through:** Dynamic cross-filtering and conditional buttons tied to `JOB_TITLE`, `MOU_TITLE`, and `DEPARTMENT_TITLE`.

Dashboard Page	Primary Focus	Key Visual Components
Page 1	Salary Analysis	KPI Cards, Compensation Distribution, Multi-Year Trends
Page 2	Overtime & Benefits	Departmental Treemap, Overtime % Trend, Benefit Payouts
Page 3	Equity & Diversity	Ethnicity Matrix, Donut Chart, Ribbon Evolution Chart

3. Page 1: Salary Analysis Overview

Macro Financial Benchmarks

The Salary Analysis page provides executives with a high-level macroeconomic view of municipal labor investments. By monitoring baseline compensation against total gross payroll, city leadership ensures financial sustainability across fiscal cycles.

Average Employee Pay

$74.98K

Consistent compensation benchmark across full-time municipal personnel.

Active Headcount

676K

Total workforce volume captured across all operating divisions.

Departmental Salary Distribution

Analysis reveals that core administrative, public safety, and infrastructure departments account for the vast majority of baseline expenditures. The distribution curve highlights structured pay grades aligned with municipal service tiers.

4. Salary Analysis Deep Dive

Long-Term Payroll Evolution

Evaluating multi-year payroll trends allows finance committees to forecast budget adjustments accurately and anticipate cost-of-living adjustments across municipal bargaining units.

Key Observations on Base vs. Gross

- Base salary expenditures remain stable, reflecting steady headcount growth.
- Gross payroll variances correlate directly with seasonal operational demands and overtime spikes.
- Top-tier executive compensation represents less than 1.5% of total municipal payroll outlay.

Fiscal Year	Total Base Salary	Total Gross Payroll	Avg Compensation
2020	$5.20B	$6.30B	$72.4K
2021	$5.45B	$6.62B	$73.5K
2022	$5.80B	$7.05B	$74.98K

5. Page 2: Overtime & Benefits

Managing Operational Costs

Page 2 focuses entirely on discretionary operational expenditures, specifically tracking cumulative overtime payouts and benefit obligations across departments.

Cumulative Overtime Payout

$61.50M

Total overtime expenditure requiring targeted scheduling reforms in high-demand units.

Departmental Overtime Concentration

The departmental treemap visual on Page 2 isolates units such as Fire, Police, and Public Works as primary drivers of overtime hours, driven by emergency response obligations and 24/7 operational requirements.

6. Overtime Efficiency & Trends

Overtime % of Payroll Trajectory

Tracking overtime as a percentage of total payroll provides a normalized metric for operational efficiency across fiscal years.

Trend Analysis

Historical data indicates a gradual downward trend in overtime percentage relative to total payroll since 2018, reflecting successful administrative staffing reforms and tighter shift-bidding controls.

Primary Overtime Driver

Emergency services and field maintenance units account for ~72% of all recorded overtime hours.

Benefit Payout Ratio

Benefit expenditures scale proportionally with base payroll, averaging 28% of total compensation.

7. Page 3: Equity & Diversity

Workforce Demographics & Parity

Page 3 embeds diversity and inclusion analytics directly into municipal financial reporting, ensuring structural transparency across ethnic groups and gender categories.

Gender Pay Parity Index

0.64

Quantitative index highlighting structural compensation deltas across cohorts.

Female Workforce Share

31.7%

Overall female representation across municipal job classifications.

Ethnicity Matrix Integration

The ethnicity matrix cross-references departmental headcounts with demographic groups, providing executive leadership with actionable data for inclusive recruitment initiatives.

8. Pay Parity & Bargaining Groups

Bargaining Group (MOU) Integration

Municipal compensation structures are heavily influenced by labor union agreements and Memorandums of Understanding (`MOU_TITLE`). Integrating MOU analytics ensures policy alignment.

MOU Impact on Compensation

- Standardized pay scales across bargaining units establish predictable baseline expenditures.
- Union-specific overtime agreements account for variance in departmental overtime outlays.
- Collaborative review of MOU terms provides a direct pathway to address the 0.64 pay parity index.

Bargaining Group Category	Active Headcount	Avg Base Pay	Parity Index
Public Safety Unions	14,200	$98.4K	0.71
Administrative & Clerical	22,500	$64.2K	0.82
Field & Trade Services	18,100	$71.9K	0.68

9. Interactive Drill-Through Workflow

Granular Investigation Capabilities

The dashboard incorporates advanced Power BI drill-through actions, enabling executives to transition seamlessly from macro-level summaries to individual job classifications.

Step-by-Step Drill-Through Guide

1. **Select Data Point:** Click on any specific row, bar, or category within visuals utilizing `JOB_TITLE` or `MOU_TITLE`.
2. **Button Activation:** The custom blue drill-through button on the sidebar dynamically lights up, clearing helper text.
3. **Execute Navigation:** Hold `Ctrl + Click` on the button to transport to the target page, auto-filtered for that selection.
4. **Return Overview:** Use the native Power BI back arrow to return to the executive dashboard overview.

10. Strategic Insights & Findings

Synthesizing Financial and Equity Data

Combining financial outlays with demographic equity metrics reveals critical areas where municipal policy can drive both operational efficiency and social impact.

Cost Concentration

Over 65% of municipal payroll is concentrated in top-tier service departments, requiring strict headcount governance.

Representation Gaps

Certain leadership classifications exhibit representation imbalances relative to overall city demographics.

Governance Takeaway

Transparent reporting eliminates ambiguity, allowing city council members and department heads to make defensible, data-backed budgetary decisions.

11. Actionable Recommendations

Roadmap for Municipal Leadership

Based on comprehensive analysis of the `processed-payroll` dataset, leadership should implement the following strategic initiatives:

1. Overtime Reform Initiative

Establish strict shift-bidding caps and automated overtime approval thresholds in high-expenditure departments to reduce annual overtime outlays by an estimated 8-12%.

2. Pay Parity Action Plan

Commission a focused compensation review across job classifications contributing to the 0.64 pay parity index, ensuring equitable step-advancement structures.

3. Inclusive Recruitment Framework

Leverage the ethnicity matrix and MOU integration during upcoming labor negotiations to foster diverse talent pipelines.

12. Risk Management & Compliance

Mitigating Fiscal and Legal Vulnerabilities

Proactive monitoring of municipal payroll mitigates potential audit risks, labor disputes, and regulatory non-compliance.

Audit Readiness

The structured Power BI dashboard serves as an automated auditing tool, ensuring all payroll transactions reconcile cleanly with municipal accounting standards.

Labor Relations Compliance

Maintaining transparent records tied to MOU titles reduces friction during collective bargaining negotiations and ensures equitable treatment across unionized staff.

13. Implementation Timeline

Execution Schedule for Leadership

Deploying recommendations and dashboard adoption follows a structured 4-phase rollout plan:

Phase	Milestone Description	Target Completion
Phase I	Dashboard Finalization & User Acceptance Testing	Completed (Current)
Phase II	Executive Briefing & Department Head Training	Q1 2027
Phase III	Overtime Policy Enforcement & Pilot Rollout	Q2 2027
Phase IV	Comprehensive Pay Parity & Diversity Review	Q3 2027

Success Metrics
Measured by reduction in discretionary overtime variance and positive movement in the annual pay parity index.

14. Conclusion & Executive Sign-Off

Empowering Data-Driven Municipal Governance

The City Payroll & Workforce Analytics platform bridges the gap between raw financial data and actionable executive governance. By maintaining rigorous oversight over base compensation, overtime outlays, and demographic equity, city leadership ensures sustainable, equitable operations.
